Allerton Room Service Bureau

BECAUSE of the critical housing situation we have established our Room Service Bureau to assist applicants, whom we cannot take care of in Allerton House, in finding suitable accommodations

Those who have rooms which they desire to place at the disposal of the most desirable kind of tenant are invited to list them with us.

Care is exercised in compiling these lists and the same high standard maintained in Allerton House in the selec-tion of guests will be main-tained in this Room Service

N. Y. Convention Attacked.

The New York convention is described as having been dominated by centrist and reactionary elements—"by the yellow 'reformist politicians,' Hillquit, Lee. Stedman, O'Neal, Block, Panken; by the '166 per cent. Americans,' Meyer Lendon, Solomon; by the 'State Socialist' and inverted patriot, Victor Berger; by Cannon and Saltis (Soltis), Karlin and Berlin (Berlyn), all of whom have no place in a party affiliated to the Communist International."

Even the Extreme Lefts of the New York convention, regarded as horribly radical by their comrades, share in the denunciation, including L. Louis Engdahl of Chicago, who was beaten by Hillquit in the fight over resolutions; William H. Kruse, Samuel H. Holland and Tucker. "In all the convention not one Communist volce was heard," sobs the voice of Moscow.

"The 'Socialist' Aldermen of New York, who voted for the Liberty Loan, who voted for money to erect the Victory Arch," continues the document reproduced in the Call; "the 'Socialist' Congressman, Meyer London, who congratulated the King of Italy upon his birthday, who voted for the war credits; the 'Socialist' legislators at Albany, who declared publicly against Communiam; the 'Socialist' District Attorney of Milwaukee, who imprisoned workingmen for breaking up a religious meeting; the the Socialist' District Attorney of Mil-wankee, who imprisoned workingmen for breaking up a religious meeting; the 'Socialist' officials who called in the Chi-cago police to expel the Communists from the 1919 convention—all these 'comrades' are still members of the So-cialist party of the United States; in fact, they controlled the May conven-tion."

Debs Alone Praised.

The only individual who gets a kindly ord is Debs. The writers of the docu-tent from Moscow admit that "Comrade their own "selfish, non-revolutionary purpose," and in nominating him for President "once more attempt to cover up and justify their compromising and cowardly attitude, at the same time refusing to consider Comrade Debs's proposal for unity with the Communists."

"Join the United Communists."

"Join the United Communist party." the document ends. "And to the leaders, the officials of the Socialists party of the United States—the Bergers, Hillquits, Londona, Lees—we have only this to say:

"You have disgraced the name of Socialist. You apply for admission to the Communist International. We answer by declaring war upon you traitors to the working class, who on the eve of he world revolution sold out to the enemy to save your skins."

MAN WITHOUT COUNTRY DELAYS DEPORTATION Ross Freed on Bond Pending Disposition of Case.

MacGregor Ross, called the "man without a country." who has been detained on Eliis Island many months as an allen I. W. W. agitator, will be released to-day in bond pending appeal by his lawyer, Miss Rose Weiss, to prevent his deportation.

Two years ago he was sent from Seattle to this port and the authorities decided he should go to Scotland, which they said was his native country. He denied he was Scotch, declaring that the sarliest recollection of his life in America was as a newsboy in the Bovery, more than sixty years ago. The British Consulate refused to give him passports as a British subject and he was sent back to Seattle.

as a British subject and he was sent back to Scattle.

Last February Ross was returned to Ellis Island with a batch of Reds, this time accused of distributing dangerous communistic literature in Scattle. As there was no proof he had been born in Scitland and as Great Britain would not receive him, he lingered on the island, always encouraged by Miss Weiss in the nope of final release. She persuaded judge Grubb of Alabama, holding court in this district, to let Ross out on bond.

250,000 POLISH TYPHUS CASES.

Will Take Ten Years to Clear Poland, Says Dr. Webster.

WASHINGTON, Dec. 1.—Prediction that the present rate of progress it will ake len years to whe out typhus in Poland, where there are 250,000 known cases, was made, in a report to the American Red Cross headquarters here to-day from Dr. Charles E. S. Webster, who recently arrived in Warsaw to direct the organization's campaign against the disease.

Webster declared that no imdiate progress in combating the scourge could be made unless ample supplies of "disinfectants, soap, clean linen and clothing" were made available.

GOVERNORS TO ASK AID FOR FARMERS

gress to Refund Debt Until Better Times.

Gov. Allen of Kansas Favors General Application of Industrial Court Plan.

HARRISBURG, Pa., Dec. 1.-Governor have been repudiated by the central body of all the Communists—the Third International—which calls itself the "General Staff of the World Revolution." and bawls forth its hair raising decrees from Moscow.

Expelled from Congress and the New York Legislature upon the accusation of dislyalty to the United States, the Socialists are now denied admission to the International on the ground that they are not true Socialists at all, but milk and water bourgeoisle, traitors to their class, faithless to the revolution, patriets—yes, indeed, Mose we even charges them with being patriots, the last word of Soylet scorn.

The Communists—the Union voted during their annual conference here to-day to begin an inquiry into what was variously called the "acute," "alarming" and "tragic" situation facing farmers of the country, with a view to recommending Federal legislation to assist them. As a first step toward carrying out their plan, which was suggested by Gov. W. L. Harding of Iowa, the conference appointed a committee consisting of Govs. Harding, Bickett of North Caro-ina, Holostop of Connecticut, Parker of Louisiana and Goodrich of Indiana to make a preliminary survey and report back before the close of the Governors' conference. After that it is contempted to the conference and the conference and the country with a view to recommending Federal legislation to assist them.

The Communists' refusal to admit the American Socialists to their memberahip is contained in a remarkable document appearing in the Russian Procs Review for October, 1920, a Communist organizated in English in Russia or on the border and intended for circulation in English speaking countries. The document is now reprinted here by the Socialist daily the New York Call.

Morris Hillquit and Algernon Lee, who are savagely denounced in the document, expressed last night their belief that it was official, and, if not actually adopted by the Congress of the Third International, which met in Moscow in the summer and fall, represents the views of that body.

The American Socialists are scored for having favored in their statement of principles the accomplishment of Socialist pretensions and the entrance of the American Socialists into the ranks of the "bourgeois reform parties." It is called "a childish and antiquated conception" of the Socialist turek.
